251 Cases Produced

## Tasting Notes

Our 2019 Vintage Chardonnay shows a tremendous depth of fruit highlighted by tropical notes and a hint of citrus and crisp green apple. It is a blend of tank-fermented wine (80%) and barrel-fermented wine (20%). The new oak portion of the fermented barrel wine is approximately 5% and adds a structured mid-palate layer which offers a subtle note of oak on the finish. The natural refreshing acidity of our grapes is maintained with the fermented barrel portion of the wine only going through ML. We use a champagne yeast for the tank-fermented portion that adds a wonderful creamy note to the palate and helps to balance the acidity.
